

Large Play Equipment Policy

Version History	
Date	Comments
22/03/2017	Created

The purpose of this policy is to ensure that children playing outside are kept safe, and that they are properly supervised, and that the equipment they play on is fit for purpose.

- Children will be supervised while using large play equipment
- Only one at a time bouncing on the trampoline
- All of my large play equipment will be checked, maintained & renewed as necessary
- All gates will remain closed so that toddlers and young children cannot access large equipment without supervision.
